Parsons Cemetery became a public cemetery in 1873. The persons interred in Parsons cemetery before 1873 are buried in the Parsons' original family cemetery. Other pre-1873 graves have been moved from elsewhere and re-interred in Parsons Cemetery since the late 1800s, including a number of graves moved from Asbury Methodist Church in first quarter of the 20th century. Veterans of the War of 1812 and the Revolutionary War are only in Parsons because they were re-interred there.

As of the date of this version, there are 1378 veterans interred in Parsons Cemetery.

Methodology used:

This list of veterans was compiled using multiple data sources. It included the systematic research of every male buried in Parsons cemetery who was born or died between 1870-1990 and who lived past the age of 17. Any person on this list met one of the following requirements. Many veterans met more than one requirement.

1. Person has a veterans' marker.
2. Veteran status is denoted in their obituary.
3. Person is listed as a vet in the Parsons Cemetery burial records .
4. A family member told us the person was a veteran.
5. Person has a record in one of the following databases or some other published scholarly work:

U.S. General Index to Pension Files, 1861-1934
U.S. Veterans Administration Pension Card 1901-1933
U.S. Civil War and Later Pension Index 1861-1917
U.S. Department of Veterans Affairs BIRLS Death File 1850-2010
U.S. Headstone Application for U.S. Military Veterans 1925-1949
U.S. Army Register of Enlistments, 1798-1914
U.S. World War II Army Enlistment Records, 1938-1946
Maryland Military Men, 1917-1918
U.S. Census of Civil War Veterans 1890
U.S. Marine Corps Muster Rolls, 1798-1958
U.S. Navy Muster Rolls, 1949-1971
Pennsylvania WWI Veterans Service and Compensation Files, 1917-1919, 1934-1948
Pennsylvania Veteran Compensation Application Files, WWII, 1950-1966

Possible flaws in the methodology which could result in a veteran missing from this list:

1. Person may have been a vet but it was not noted in their obituary and they aren't listed in one of the databases above. For example, they may have died before applying for a pension. This is particularly true if they didn't fight in a major war.
2. There are a handful of unmarked, unidentified graves in Parsons. Some could be veterans.
3. Since I did not systematically research every female buried in Parsons Cemetery, I may have missed a female veteran.

Note: Some people served in multiple wars and a few even served in more than one branch.
